About Us

- ▶ 20+ Years Experience & Trusted Network Partners Worldwide
- ▶ VCMSP (Varahii Group) was formed with a vision to explore in the field of industrial solutions in the year . We excel in the field of Industrial consultancy - IT & Non IT, For technology and manpower support. In today's competitive world every business depends on web technologies and Varahii plays a vital role in offering various solutions and support system to its reputed clients through a network of professionals in its team.
- ▶ We are a group of professionals, and have at least one expert in each industry associated with us. This is our core strength, our aim is to transform the Indian education (IT & Non-IT) sector by providing expert training & solutions.
- ▶ We understand the current market need of skilled manpower & dedicated manpower who can drive company in the vision of it's founders without looking back. And our specialized skilled training is just for that.

▶ Job Guaranteed Training

We offer job guaranteed training based on Linux/FOSS platforms. This training is for a duration ranging from 2 to 6 Months & is one of the best course to get the industrial knowledge, since we only train student based on industrial requirements.

▶ Skill Development Training

Varahii Infotech Limited truly understands Individual/Corporates unique requirements and based on that we train on specialized skill sets development. (e.g. - PHP, Apache, MySQL, Networking etc.)

▶ Corporate/Industrial Training

We also provide training as per your custom modules requirements based on Linux/FOSS with presentation skills, corporate communication skills, marketing & sales skills with behavioral & stress management training for the Corporates.

▶ Colleges Special Training

We have a special kind of training program for schools/colleges for their students who are with IT or Non-IT for getting the correct career path & achieve the success in this competitive world.

- ▶ Varahii Group is already a very well known & established name in the field of Aviation, Hotels, Accounts, Consultancy & Banking sector, where we have provided the best solutions to companies based on their unique requirements.

- ▶ We provide Linux/FOSS based IT consultancy services to individuals/companies for exploring best possible IT solutions

- ▶ Below are the wide spectrum of consulting services that we offer to our clients.
 - 1) Linux/FOSS
 - 2) Server Solutions
 - 3) Data Storage
 - 4) Security
 - 5) Database
 - 6) Big data

- ▶ At Varahii we first understand your existing IT infrastructure & based on that we generate report which shows us how much cost can be reduced from the existing infra with better security & enhanced manpower performance. Below are the wide spectrum of development services that we offer to our clients. We basically provide solutions to meet your ever growing dependency on IT infrastructure.

- ▶ **Build your infrastructure on a platform without boundaries..**

We help build Software that's open can change the way you do business. It lets you make your own technology choices: hardware, systems, and applications.

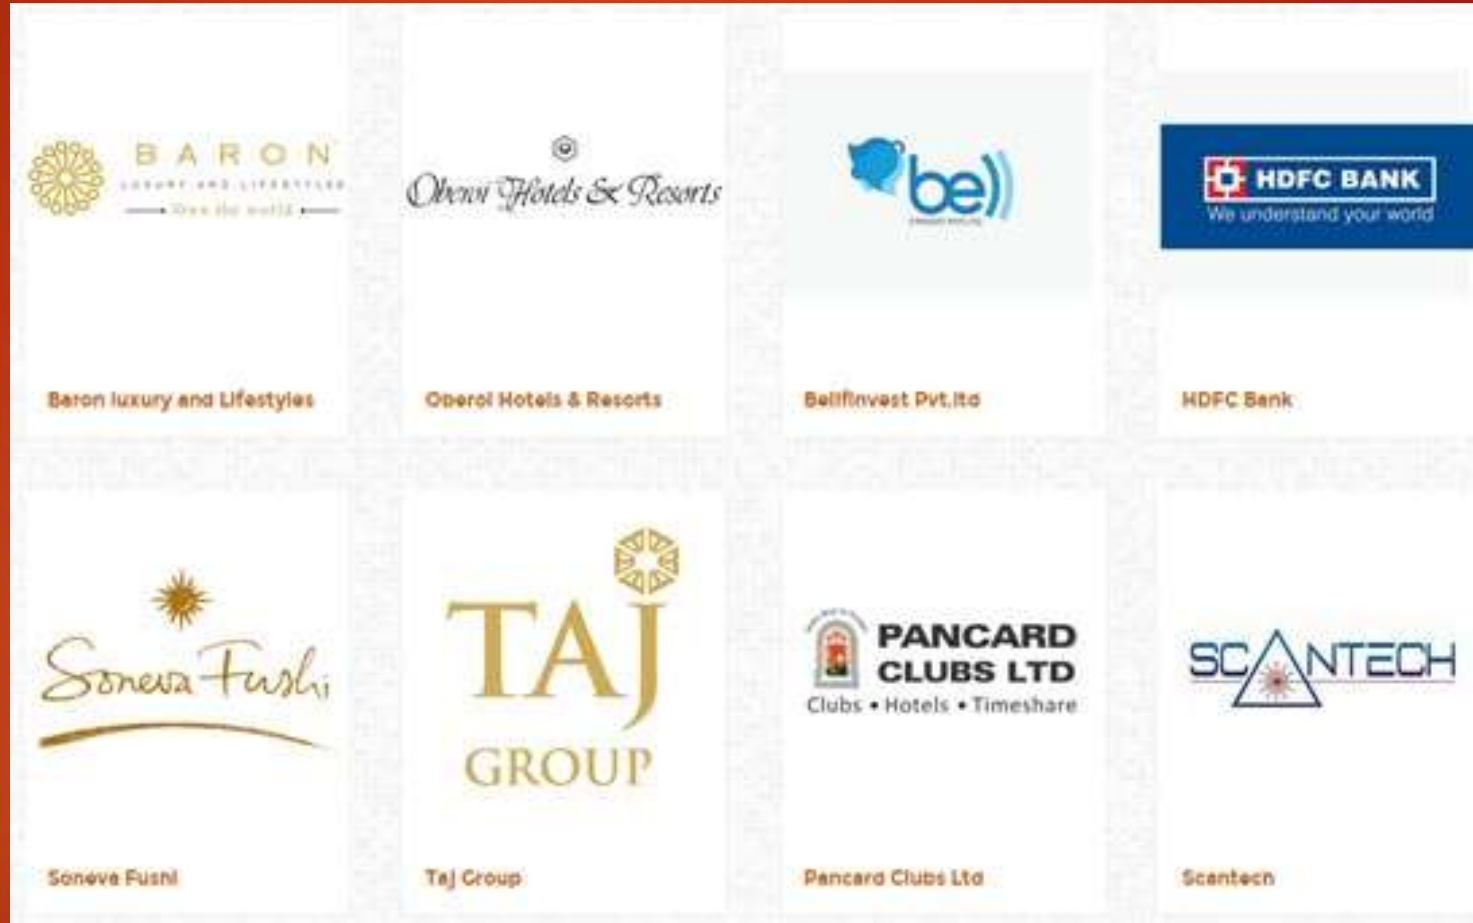

- 1) Migration Solutions (From Unix to Linux)
- 2) Applications (Mail Servers, Security, Android Development, etc.)
- 3) Management Systems (ERP, CRM, HRMS)
- 4) Storage solutions (SAN/NAS)
- 5) Device drivers
- 6) Databases

- ▶ Seeing the way industries are growing, Varahii Infotech Limited has accepted industry challenge just to train individuals who really take education seriously & we mean it. We make each & every individual Industry ready, before that person even joins the company.
- ▶ Every individual who is got trained from our company is indirectly gaining industrial experience of over 6 month, we claim this because we cover the aspects that are not even taken seriously by the bigger training institutes.
 - ▶ Technical Training Skills Development
 - ▶ Corporate Communication Skills Development
 - ▶ Email Communication Skills Development
 - ▶ Presentation Skills Development
 - ▶ Marketing Skills Development
 - ▶ Sales Skills Development
- ▶ So basically our aim is to improve not just the overall Indian education standard but also to deliver best of best manpower solutions.
- ▶ We guarantee the quality/dedication of every single individual that is placed in the company
